THE LONG APOLOGY

SYNOPSIS

"What do you think about death?"

"I don't think about it."

Earl Marks kills people for money. He doesn't think about it--he's just the instrument of someone else's vengeance. All that changes with the death of his only friend Tommy. In the dark nights of the soul that follow he must come to grips with the conflict between what he does and who he is. Redemption appears in the person of Karen, a woman also seeking absolution from the past, and Earl begins to realize once more what it means to be human. Unfortunately his salvation may be beyond reach as both he and Karen are being stalked by the remorseless Mr. Shiv, who embodies everything Earl is trying to leave behind. As events escalate beyond his control Earl must decide if he is strong enough to change- when the price could be Karen's life.
